Rev. Sir:-

In reply to your recent communication, I beg to say that the Carlton Drug Company of this City have been requested to ship to you the drugs for which you have made requisition for use in the Girls' School at Spanish River. Kindly make a note of the fact that all requisitions for drugs should be submitted in duplicate. The firm has been told to send their account in detail and in duplicate to you for your certificate. If the drugs are received by you in good order you should certify the account, and transmit to the Department for payment.

To the Secretary Dept. of Indian Affairs
Ottawa

January 31st 1914

Dear Sir,

In reply to your letter # 388564-1, dated Jan. 26th
I beg to say that I have certified all accounts for
drugs received, and have sent them to the Dept.
Re the Carlton Drug Co. we never received the drugs
nor the accounts for them.
The drugs requested then as stated in the letter of the 17th
of December were for the girls' school, we never
received them.

Since that time we made a new requisition for
cough medicine that we did not receive although
they are badly needed.

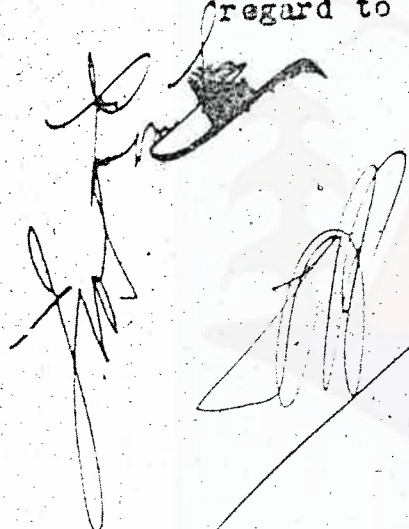

I send in a new requisition for drugs including
the above cough medicine and other drugs needed
for the boys' school. Besides I will send you a
duplicate of the requisition made for the girls' school
for the drugs not received.

Yours truly,
L. M. Dugas, s. j. Principal
Spanish River Ind. School.

Ottawa, 3rd February, 1914.

Rev. Sir,-

In reply to your letter of the 31st ultimo, I beg to say that Mr. R. I. Harrison, druggist of this city, has been requested to ship to you the drugs for which you have made requisition in that letter with the exception of 1 gal. ^{Syrup} Corillana Comp.; 1 gal. Wampole's Cod Liver Oil Comp. and 3 thermometers, which articles were ordered for your school from Mr. R. Perkins, and shipped recently. The Department is making inquiry of the Carlton Drug Company, with regard to the drugs ordered from that firm.

Your obedient servant,

Asst. Deputy and Secretary.

Rev. L. V. Dugas, S.J.,
Principal,
Spanish River Industrial School,
Spanish, Ont.

Ottawa, 3rd February, 1914.

Sir,-

I enclose herewith a list of drugs required for use at the Industrial Indian School at Spanish, Ont., and I have to request that you will kindly ship the articles in question, which should be pure and of the best quality and securely packed to the Principal of the School, the Rev. L.V. Dugas.

Your accounts in duplicate and in detail should be forwarded to the Principal, whose certificate thereto is required before the matter of payment can receive attention by the Department.

Your obedient servant,

Asst. Deputy and Secretary.

Mr. R. I. Harrison,
Druggist,
Cor. Rideau & Cumberland Sts.,

Principal.

Ottawa, ^{8th} 4th April, 1915.

Rev. Sir:-

The Department has received the requisition for drugs which you submitted recently for use on behalf of the Girls of the Spanish River School; and in reply I beg to say that as the requisition is somewhat large, the Department desires to be informed how long you estimate that these drugs will last. I beg to point out that the total expenditure during the fiscal year 1914-15 for drugs for use at the Spanish River School amounted to \$247.28. It is not considered advisable to buy in ^{very} large quantities, as certain of the articles may deteriorate when kept on hand for any length of time. When your report in this matter is received, action will be taken.

I may say that the Department is considering the question of ordering the drugs required from a local druggist. Kindly state the names of druggists in the neighbouring towns who would be in a position to fill an order if given. The Department does not wish to deal with any firm which could not furnish fresh drugs of the best quality at reasonable rates. It is desired to curtail expenditure compatible with the receipt of a satisfactory supply of drugs.

Your obedient servant,

J. D. McLean

Asst. Deputy and Secretary.

Dear Sir,

467188

In answer to yours of April 8th re 388664-1 re buy requisition for girls' school, I beg to say that our infirmarian was sick and could not give me necessary information before to day. Here is what he says: "The requisition will in all probability last well until the fall, it is far cheaper to buy drugs when possible in large quantity. In the order sent for the girls' school I have well considered all questions of deterioration and beg to state that there is nothing of that nature in the order. I have over 20 years experience in medicine and surgery and you can rely on my studying strict economy on this behalf as chief infirmarian to these schools."

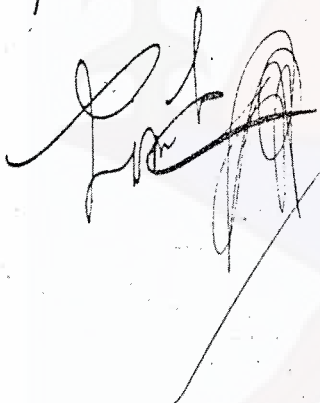

There is no druggists in the neighbouring towns who would be in a position to fill an order if given. We buy all our drugs for our colleges from Lynam in Montreal, and find it O.K.

Yours truly
L. Dugas, Jr. Principal.

Ottawa, April 24, 1915.

Gentlemen:-

I enclose herewith a list of drugs required for use at the Boys' Industrial Indian School at Spanish, Ont. I have to request that you will kindly supply the articles mentioned and forward them by express to the Rev. L.V. Dugas, Principal of the above mentioned school at Spanish, Ont. Kindly send with the drugs your account in detail and in duplicate, to which you should attach a receipt for the pre-paid express charges. If the drugs, etc., are in good order when received the account will be certified to by the principal who will then forward it to the Department for payment.

Your obedient servant,

F. D. McLeod
Assistant Deputy and Secretary.

[Handwritten signature]

473058

Dear Sir
I herewith beg to forward to you my fall & winter requisition. It may seem to you somewhat early & at the same time large & I therefore wish to give you the reason: All my medical friends have been kind enough to warn me that before the end of September there will be quite an advance in price on account of the war & that the price will continue advancing up to the new year & therefore I deemed it prudent to try to economize by ordering early & for fall & winter. I think it is highly improbable that I shall require anything else before the new year.

Thanking you in anticipation

I beg to remain
Most respectfully yours in f.c.

NOTES ON SCHOOLS IN S. HAGAN'S AGENCY

I would suggest that a surprise inspection and examination of the school work at the convent be made, possibly by Mr. McGibbon, where he can test the efficiency of the system of tuition being given at the convent and the Department will then be in a position to determine just where the fault lies for the apathetic attitude of the Indians to school matters.

Ottawa, 11th April, 1916.

Sir:-

In reply to your letter of the 5th instant, I beg to say that Mr. T.T.Beatty, druggist of this city has been requested to forward to you the drugs for which you made requisition on the 15th March. If the drugs reach you in good order, you should certify Mr. Beatty's account and forward it to the Department with a view to payment. Kindly be particular in future when sending a requisition for a supply of drugs to see that the requisition is made out in duplicate.

Your obedient servant,

Asst. Deputy and Secretary.

Rev. L.V.Dugas S.J.,
Principal,
Industrial School,
Spanish, Ont.

Ottawa, 11th April, 1916.

Sir:-

I enclose herewith copy of a requisition for drugs which the Department has received from the Rev. Principal of the Indian Industrial School at Spanish, Ont. It is desired that you will kindly supply the drugs mentioned in the quantities stated, and that you will securely pack the same and forward them to the Rev. V. Dugas at the above mentioned address. The drugs should be pure and of the best quality. Kindly attach to your account, which should be in detail and in duplicate, a receipt for the prepaid express charges on the consignment.

Your obedient servant,

Asst. Deputy and Secretary.

Mr. T. T. Beatty,
Druggist,
Wellington St.,
Ottawa, Ont.

ADDRESS REPLY TO THE
SECRETARY DEPT. OF INDIAN AFFAIRS,
OTTAWA

480786

Ottawa, 17th March, 1916.

Sir:-

I beg to transmit herewith copy of a requisition for drugs which the Department has received from the Principal of the Industrial Indian School at Spanish. It is considered that the requisition is large and I shall be glad if you will examine it and if you consider it advisable amend it before you return it to the Department. In December last the Department supplied drugs as per list, also enclosed, for use at this school.

The average attendance at this Industrial Boarding School is 133.

Your obedient servant,

Asst. Deputy and Secretary.

O. I. Grain, Esq. M.D.,

Chief Medical Officer for Indians,

Indian Office,

Winnipeg, Man.

To the Secretary,
the Department of Indian Affairs.

Rev. Sir,-

Referring to letter to you of the 11th April relative to drugs required for use at the Spanish River Industrial School, I beg to say that the requisition, which you submitted, was amended before Mr. Beattie was given authority to fill the order. In certain cases the quantities of drugs asked for were reduced, and certain articles asked for were disallowed. When you receive the drugs etc., together with the druggist's account, you should carefully check the articles furnished and if you find the account correct, certify with a view to payment and forward it to the Department.

Your obedient servant,

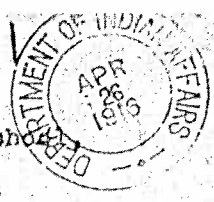

Asst. Deputy and Secretary.

Ottawa, 28th April, 1916.

Sir:-

I enclose herewith an amended list of drugs required for use at the girls' Department of the Indian Industrial School at Spanish, Ont. It is desired that you will supply the drugs in accordance with this list. If you have not already made shipment of drugs to the above mentioned school, this lot of drugs should go with those for which you received an order. If you have made shipment, it is desired that you will send these drugs as soon as possible. The instructions with regard to rendering your account and with regard to shipment are the same as already furnished you.

Your obedient servant,

Asst. Deputy and Secretary.

File No. 276

Indian Department, Winnipeg.

April 25th, 1916.

Sir,-

This Requisition should have accompanied the one referring to the girls, which was sent several days ago in reply to letter from the Department.

It had not been properly attended to owing to my being connected with Military affairs, which took up so much of my time. I found out that I could not attend to both duties and be faithful to either, so I have resigned from my position with the Military Department, and I hope in future that you will not find any neglect on my part to your Department, as I intend to devote my time entirely to the Indian Department.

Your obedient servant,

W. H. Murray

Dear Sir

On the 15th of March I had the honour to forward to you a requisition for drugs. On the (388664-1) 11^R of April you informed us that Mr Beatty of Ottawa had received orders from you to supply us with the said requisites.

It is now the 26th of April and there is no sign of invoice or drugs from the said Mr Beatty. I therefore respectfully beg to call your attention to the matter as I am becoming embarrassed over this long delay, and I sincerely hope you will be able to find means of rousing up the subject to prompt attention.

I would respectfully beg to remark that the only firm, who have given us absolute satisfaction in every respect as regards promptness in shipment, perfection in quality of the drugs, & the packing of the same, is the house of Messrs Lyman Ltd. Montreal.

Rev. Sir,-

The Department received on the 4th instant the requisition for drugs which you made on behalf of the Girls' Industrial School at Spanish; and in reply I regret to say that the said requisition will not be filled, as in July last, the Department authorized ^{the purchase of} ~~the~~ supply of drugs for this school, while on the 13th September drugs were ordered for the Boys' School at Spanish. It is considered therefore that you have already received a sufficient supply of drugs for use during the fall and winter, and if further drugs are required, they should be paid for by the school.

Your obedient servant,

Asst. Deputy and Secretary.

486073

Dear Sir,

Re yours re 388,664/1A dated

Oct. 6th 1916 I beg to remind the Dept. that we had an epidemic of measles last spring when about 100 children were sick at the same time, and that brought the drugs supply to an end, so you must not think that we ask more than what is necessary, we have no drug stores around here and in a case of sickness we need to have the drugs on hand. I send you a new requisition for the girls Dept. which they make as small as possible and I hope that the Department will grant them the drugs needed.

With the little revenue of the school we cannot provide the children with more than food and clothes especially now that the prices are so high on everything.

[Handwritten signature]
As the Secretary Dept.
of Indian Affairs
Ottawa.

Yours truly,
[Handwritten signature]
Principal.

Indian Affairs. (RG 10, Volume 6217, file 471-1, part 1)

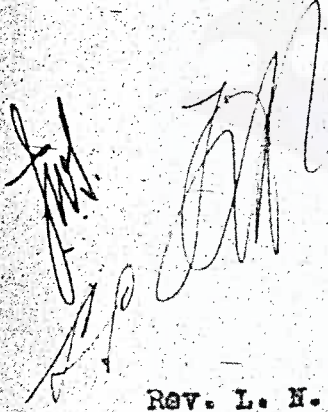

Ottawa, October 14th., 1916.

REV. SIR,-

Referring to your letter of the 11th instant, I beg to say that Messrs. Lymans Limited, of Montreal, have been requested to supply the drugs for which you have made requisition on behalf of the Girls' Department of the Spanish Industrial Indian School. If they reach you in good condition, you should certify the account, which should accompany the consignment, and forward to the Department with a view to payment.

Your obedient servant,

Asst. Deputy and Secretary.

REV. L. H. DUGAS,
Principal,
Indian Industrial School,
Spanish, Ont.

Ottawa, October 14th., 1916.

Sirs,-

I beg to transmit herewith a list of drugs required for use at the Girls' Department of the Industrial Indian School, at Spanish, Ont. It is desired that you will supply the drugs and make shipment of the same to the Rev. L. K. Dugas, Principal of the Institution. Kindly attach to your account, which should be in duplicate, a receipt for the prepaid express charges on the consignment. When the account reaches the Department, the matter of payment will be given prompt attention. You should certify on the account that the prices charged are your lowest wholesale rates.

Your obedient servant,

Ottawa, 15th November, 1916.

Sirs:-

With reference to the order recently given you for drugs for the Girls' Department of the Spanish Industrial School, and the reference thereon to Mr. Jones' prescription; I beg to transmit herewith the prescription in question. I have to request that you will kindly cause it to be filled and sent to the Rev. L.W. Dugas, Principal of the School at Spanish, Ont.

Mr. Dugas has informed the Department that he received one dozen syringes from you, and that they are of no use for work at the School. He asked to be supplied with an ear syringe which he describes as "all metal matchless syringe, 1/4 ozs. equipped with S & E tips". It is desired that you will kindly furnish him with the article in question.

Suffern

This is to authorize Mr. J. A. Koehnstedt of Wikwemikong to make an appeal to the Indian Department for a higher per capita grant to support our school
Eng. A. Popuean of

Garner College, Le 19 June - 1877

Dear Sir (Mr Hochmstedt,

I forgot to ask you a favor -

Will you kindly see Mr. Dean your
great old friend and supplicate him to
obtain for us \$125.00 instead of \$100.00

as per capita grant for our children

We are going under every year
and at the price of things we may
not be able to keep up our good
work - your influence is great in
Stena and you may help us

J. P. Smead

INDUSTRIAL SCHOOL
SPANISH, ONT.

+985.0 Aug 18th 1917

Dear kind Mr Scott,

you have probably wondered, at my not writing to you since January. — The reason is that my new quiet mode of life in this school has brought on me so much constant headaches that I was often unable to do even my official correspondence. I have now come to beg your

beneficent advice on a very important question for us.

The discouragingly high cost of living, and the lack of outside resources, have made it extremely hard, not to say impossible for us, to continue the sustenance of the material management of the two sections of our school.

We have many Brothers and Sisters very anxious to continue to devote their lives to the great work, of which you have the general direction; but material means are wanting. Would your Department

be disposed to buy our two schools and
their farms, and employ us at the intellectual
and spiritual of management of them: as you
are doing for three western Industrial schools,
owned by the Oblate Fathers?
a word of answer would greatly oblige

Your very humble and grateful servant,

Eng. A. Papineau, S.J.
Principal

August 20, 1917.

File

My dear Father Papineau,-

I was very sorry to learn from your letter of the 18th instant that you are not in good health and have been suffering from headaches. When one considers the many details that you have to attend to and the worries of such a large institution, one sympathize with you very heartily. I hope now that you may be feeling better. As you are no doubt aware, we have increased the per capita grant for the Spanish River school by \$10.00 for the current fiscal year, and this is the best we can do. It would be impossible for us to finance the purchase of your properties, even if the Government were to consider your suggestion favourably. We are not undertaking any new building operations or the acquirement of any new establishments. You might at some convenient time, however, let us know at what amount you value the properties.

With kind regards, I am

Yours sincerely,

Spanish Out

August 24, 1917

Dear Mr Benson

I am writing to ask you to favour me by making some enquiries for me & let me know the result. And I will proceed to explain. In my experience as the infirmarian of this establishment for the past 6 years it has been necessary to do a considerable amount of extraction of teeth & owing to not having the necessary outfit for filling teeth, (which branch of work I have considerable experience), it has been my misfortune to have to extract many teeth which would have saved many years had I only had the necessary instruments etc to have saved them by filling.

I would ask you to kindly make enquiries to whether the Department would supply me with a modest outfit for the purpose of saving the teeth as possible as I find that for many of the teeth are handicapped by being considerably on account of malnutrition. I will make outfit list & send it with full requisition for medicines.

Thanking you in anticipation

I remain

Yours sincerely in Jesus Christ

Sept 17 1917

[Handwritten initials]

Dear Very kind Mr Scott,

Prigun accept my sincere
gratitude for your sympathetic letter of Aug 20.

I must also offer you many warm thanks
for the increase of the grant. - I know that
we all owe this entirely to your proverbial
devotedness to our Schools.

Without financing now the purchase of our
properties, would the Department be willing
to buy them now and pay the capital
after a convenient number of years? You
would just pay the interest (say 6%) of the
total purchase.

The Boy's school properties i.e. School,
saw mill and planing mill; barns and
dependencies,

2

19

with six hundred acres of land have cost us
sixty thousand dollars.

The girls' school properties: School; laundry;
barns and nearly 400 acres of land, have
cost them ninety thousand dollars.

It would make a total purchase of
one hundred and fifty thousand dollars.

Hoping that you will see your interest and
advantage in the transaction,

Remain

Very gratefully and devotedly Yours

Eng. A. Papineau, S.J.

~~Dear Sir~~
Dear Sir

Quite a number of our
pupils have weak eyes; cannot see what
is written at the Black Board, or are suffer-
ing some other defects.

Would you kindly allow us to send for
Dr Hutchins, oculist of Sudbury,
to have those children attended to?
The Specialist whom you sent at West-Beay,
& Sheshaywaning last year, has done a great deal
of good. May we ask for the same clarity?

Thanking you in advance
I remain

Sincerely
Gratefully Yours

Edg. A. Populson

Ottawa, November 16, 1917.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 8th instant stating that quite a number of the pupils at the Spanish River Industrial School have weak eyes and asking for permission to send for Dr. Hutchins, oculist of Sudbury, to attend to these children.

In reply I beg to say that the Department would like to have a report in regard to these children from the regular medical attendant of the school. You will be good enough to have him examine all the children in the school who have weak eyes and ask him to forward a full report of the results of his examination to the Department, so that it may be in a position to judge whether the services of a specialist are necessary.

Your obedient servant,

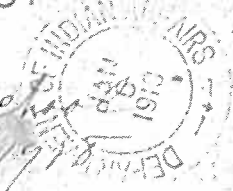

Asst. Deputy and Secretary.

Rev. Eug. A. Papineau, S.J.,
Principal,
Spanish River Industrial School,
Spanish, Ont.

Spanish River Industrial School
Jan 11

Sir:

I suppose you have already been notified that Rev. E. A. Papineau, S. J., for reasons of poor health, has resigned his position as principal of the Spanish River Industrial School.

I have been nominated by my superior to take his place. Such is the approval of the Indian Department in the position.

I have been 15 years a member of the Indian Missionary Staff, and have been for years in immediate contact with the Institution,

Very truly yours

T. A. Desautels, S. J.

The Secretary of the Dept.
of Indian Affairs
Ottawa, Ont.

Dear Sir,

As my headaches are still continuing, I am forced to ask you to relieve me from the office of Principal of the Spanish River School, at least for a year or two. As soon as I am better I will be glad to devote myself to your excellent work.

Hoping you will grant my request and assuring you that I feel sorry to be unable to continue in that office.

I remain Respectfully yours

Eng A Papineau

Mr. Benson

Dept. Ind Affs Ottawa

Dear Mr Benson

I regret to have to inform you that I have some laceration in the infirmary with a case of blood poisoning in the left wrist.

On Thursday last (14.2.18) I had the doctor from Massey & under chloroform there were some incisions practiced to drain out the pus.

I foresee that it is going to be a considerable time before there will be much improvement

There is still danger for him losing the hand, whereas if a complete dissection of the part were practiced which would necessitate him going to the hospital I have every reason to believe the hand will be saved.

A word from you by telegraph & I will take him to either Sudbury or Sault Ste Marie or in fact any hospital you will designate or I will keep him here what ever you wish awaiting your wishes

I remain Dear Mr Benson.

Yours sincerely in Jesus Christ
Fred. M. Thompson

PUBLIC ARCHIVES
 ARCHIVES PUBLIQUES
 CANADA

Sept 1

Children have entered our school this year in larger number than any previous year. We have already 96 boys, 95 girls, and more are to come soon, and I have refused quite a number for want of room and not to exceed the number of 200 for both institutions. Comes the question if we should refit our school to accommodate a larger number of children or not. We are ready to do it if the Department of Indian Affairs would guarantee the ordinary grant for a number of children not exceeding 250, boys and girls. The girls school is large enough in all its parts for 125 children. The boys dormitory can contain only 100 beds, but this can be enlarged by adding half of the third story of the staff building. All other parts of the house are large enough for 125 children.

It is my opinion that the boarding school will be more and more the means of educating the Indians of this part of the country. The day schools have not reached great many Indian children. The proportion of those who attend these day schools seems rather to decrease, and the some of the many reasons are the following: The Indians are not

Indian Affairs. (RS 30, Volume 6217, file 471-1, part 1)

PUBLIC ARCHIVES
 ARCHIVES PUBLIQUES
 CANADA

as before grouped in villages, they rather tend to disperse all over their respective reserve for farming purpose. The high wages in saw mills and timber camps, the berry picking, sugar making keep always many families shifting about. For these reasons, some schools around here have to close periodically, so Serpent River School, Spanish River (Nagamok), South Bay, Whitefish Lake.

The new location of our boarding school has afforded school facilities to many band of Indians who had never previously sent children to Wabunnu. We now received children from Pujissing, Soki's bands, from Abitibi, Maniwaki and we have application from Lake Superior Indians. I have already refuse quite a number of children and some are orphans or destitute children.

If the Indian Department allows us to increase the number of our boarders, we will prepare to answer all the applications.

Very sincerely yours,

Mr Martin Benson

OCT 15 1918
RECORDS

msv

DISTRICT SCHOOL,
STANTON, ONT.

October 14th 1918.

388664/1

Dear Sir:

514775

I am in receipt of yours of the 10th inst. concerning the increase of grant earning pupils in our school. The answer was in the negative for the reason that the appropriation for school purposes is limited.

Then I would beg the Department to consider another proposition. Our school has now the full number of children allowed: 100 boys. There is no margin left for urgent cases that present themselves now and then. Lately I had to refuse five very poor and orphan boys for the reason that the number of children allowed in our school was filled. Parents will bring us from far distance children without previous notice. It is not easy to turn them away.

There are here some 7 or 8 boys undesirable, past ^{beginning to be} ages, insubordinate, exercising bad influence on others. One of them is scrofulous, one has sore eyes. I would propose the discharge of these boys. They draw very little advantage by being here and they have the place of others. If it is granted, which I desire much, I would propose names and add explanations.

I would be pleased to receive soon our cheque for the quarter ending Sept 30th. We are in such need of money.
The Sec. of the Dep^t of Ind. Affairs
Sincerely yours,
Ottawa, Ont.
T. A. Desautels

Ottawa, October 21, 1913.

Reverend Sir/-

I have to acknowledge the receipt of your letter of the 14th instant, in which you inform the Department that the Spanish River Industrial School has now the full number of children in residence for which a per capita grant is allowed and that there is no margin left for urgent cases that may present themselves for admission.

In reply I beg to say that in the case of the seven or eight boys, whom you state are undesirable and are beginning to exercise a bad influence, if you will forward an application stating their names and register numbers, the Department will be disposed to grant their discharge.

The cheque for the September quarter's grant was sent you on the 17th instant and it is hoped will reach you in due course.

Your obedient servant

7. 11. 18
[Handwritten signature]

Spanish, out. Nov. 18, 1918

516287

No doubt you have been informed of the great trial we have undergone these last weeks. The Spanish Influenza has visited us in all its severity. It broke out first at the girls school, the 21st Oct., and in three days, all the girls except three and some members of the staff were in bed. Three days after it started in the boys school, and in a few days, all the boys, except three and six members of the staff were sick. We had many serious cases, lungs, kidneys, and ears troubles, many cases of pneumonia. I regret to state that we had to register some losses in both schools; the following is the death record: Oct. 28, No 0402 Lina Sawatine, 14 years, 4th Standard, Manitowish unceded. Oct 29, No 0447, Ellen Manitowish, 8 years 1st Std. Cockburn Island; Oct. 31, No 0482, Ernestine Corbiere, 7 years 1st Std. West Bay; Oct 31st No 0295 Mathilda Rissillon, 16 years, 5th Std. Tescalon; Nov. 1st No 0381 Rose Womignans, 10 years 4th Std Manitowish unceded; Nov. 3rd No 0395 Mary Medweish 12 years 3rd Std Manitowish unceded. Nov. 3rd No 0288 Annie Begoniaassang 14 years 5th Std. Manitowish unceded. Nov. 12 No 0448 Virginia Corbiere 7 years 1st Std. West Bay. Boys: — Nov. 4 No 617 Augustus Tabbell 10 years, 2nd Std. Cahygnaraya; Nov. 4 No 552, Moise Minnowakana 7 years, 1st Standard Spanish River; Nov 5 No 533 Michael Akimozia, 11 years, 1st Std. Cape Croker; No 7 No 543 Edmund Witskamizad, 11 years 3rd Std.

Manitowish unneeded; Nov 8 No 529, Jerome Hitchhiker
12 yrs 3rd Std South Bay; Nov. 8 No 469, Joseph
Amerson 11 years 3rd Std Cape Craker. Nov. 9 No 435
Alexandre W. Emigraus 13 years 4th Std Manitowish unneeded
Nov. 11 No 417 Isaiah Beauvais 15 years Industrial
Course, Shoemaker St Regis. In all 8 girls and 8 boys.

We have still a few in bed recovering very slowly.
Some of the most serious cases who have partly recovered
might remain so weak that they would not be able
to attend their school duties, and some might
develop tubercular diseases. I will report on such
cases if experience prove they turn that way.

Thank to the Indian Department, we have been well
supplied with drugs. We tried to give the children
the best medical and nursing attendance we
could in those in the circumstances we were
in. We had the help of one infirmarian from Red-
bury and of two from Montrose.

I would please to receive a letter from Mr Agent
of the station J. Bayne in which he quotes the
following statement from Mr J. Stewart of the
Ind. Dep't: "Replying to your letter of the 22nd of the
reporting outbreak of Influenza at the Industrial
School at Spanish, the Department approves of Dr
Mc Dermott's engagement to attend these cases,
and you should see that every attention in the
way of nourishing and medical attendance is
given them." I concluded from this that Mr Dr
Mc Dermott was at the charge of the ~~cases~~ ^{patients}. In Mc Dermott
paid his regular visits to the sick of our schools,
generally every day. He has shown ability and
devotion in the fulfillment of his duties.

We have been doing more than ordinary infirmarian
work, we had real hospital work and we had to
undergo some extra expenses. I call to the fairness
of the Department to help us to solve our expenses,
at least the bill of the extra infirmarian which
will amount to \$150.00.

We hope to start teaching in a few days after the
washing and disinfection of the buildings is
finished.

You will find inclosed the Admission papers
of Ernestine Ochiire and Basil Mishi Binejima
They entered on the date marked on their papers.

Three boys, who have completed their course of
study last summer, asked to stay a few months more
in the school to learn some trade in their respective
trade. Isaac Beaurais was a Shoemaker.

Joseph Martin applied himself to carpentry and
cement work, Angus Beaurais applied himself to
join work, especially to sloughing. They wish now
to be discharged, and I beg for their discharge
Isaac Beaurais No 417. Have already been discharged
by the Almighty in this last disease.

No 419 Joseph Martin 16 years, St Regis. entered Sept 20, 1911.
No 387 Angus, Ignatius Beaurais, 15 years, Caughnawaga
entered October 3, 1912.

Herewith is the certificate of death of Peter Johnson.
Owing to his predispositions this boy was nearly dying
of the influenza, he will be to check to attend his
properly his school duties this year. I would advise to dis-
charge him too. No 416 Peter Johnson 16 years, St Regis.
I suppose these boys are entitled to their fair pay by the
Department.

Very sincerely yours,
The Sec. of the Dep't of Ind. Affairs
T. A. Dequette, Jr.
June

I have to acknowledge the receipt of your letter of the 18th instant in which you inform the Department of the death of eight boys and eight girls at the Spanish River Industrial School as a result of the severe epidemic of Spanish influenza.

The death of these pupils is very much regretted. The Department is satisfied that every care and attention was given them by yourself and members of your staff as well as Dr. McDermott. It is hoped that the pupils are now all on a fair way to recovery and that no further deaths will occur. The class work should be resumed again as soon as the disinfection and cleaning is completed.

The expenses incurred by you in the employment of the extra infirmarians to the amount of \$150.00 will be paid and you should forward vouchers, in duplicate, properly certified, covering the expenditure to the above amount.

With reference to the request for the discharge of pupils Nos. 419, Joseph Martin and 387, Angus Ignatius Beauvais, I beg to say that enquiries are being made from the agents at St. Regis and Caughnawaga as to what disposition is to be made of these boys when they arrive home. As soon as a reply is received you will be given further instructions. The cost of their transport will be paid by the Department.

With reference to pupil No. 416, Peter Johnson, I have to acknowledge the receipt of a certificate from Dr. McDermott regarding the health of this boy and recommending that he be discharged from the school. As the parents of this boy are dead, enquiry is being made as to what arrangements can be made for his care if it is decided to return him to St. Regis. I have to request that you will be good enough to have Dr. McDermott furnish a report as to whether he considers this boy would be likely to recover if he were sent to a sanitorium. If there is a reasonable hope that he will recover his health arrangements might be made to have him placed in a sanitorium. However, before any action is taken Dr. McDermott should give a report and also state whether he considers that it would be advisable to have him sent to a sanitorium.

I have also to acknowledge the receipt of applications and certificates of health for the admission of Ernestine Corbiere and Basil Mishibinejima, and in reply I beg to say that the admission of these two children is approved. The application of Ernestine Corbiere is returned herewith as the signature of the witness has not been filled in and this should be done and the application returned to the Department. In future, the Department would like you to forward all applications for admission to the agent of the band to which the children belong for his approval before the applications are sent in to the Department.

Your obedient servant

Rev. T. A. Desautels, S.J.,
Principal,
Indian Industrial School
Spanish, Ont.

Assistant Deputy and Secretary

Spanish, Oct. May 2^d 1919

EXTRACT
ON 760370-25

Perhaps you will find my report a little lengthy, especially the items about the children. So, if you find useless passages in this chapter, I do not be offended if you cut them. The same about the correction of language, as I have not the pretensions to be a scholar in English language.

As you will notice, the boys have been granted a typewriter, and the girls have none, and they are anxious to learn it also. The teacher of the girls' second class, Miss Jenkins, told me many times she would be delighted to teach typewriting to the girls. I think it would be a help now towards the progress and an advantage for the girls if they learn typewriting. Thus they would work under a better situation than housemaids, etc., they would associate with a higher class of people than they do in their work. So the my individual girls are interested to know you have of the Department, of the results concerning this matter. Besides that, and in my opinion, it should be greatly appreciated.

The Director,

328664 - 1

March 12th 1920

537449

Dear Sir

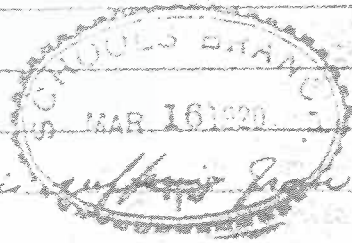

Please find enclosed a letter from
Doctor Mc Dermott advising us to send Louise Mc Graw
pupil no 0480, to the Hospital.

We have been trying for several days to reach her mother who
passed the winter at Little Current, Ont, but in vain. We tried
at Sucker Creek and Bogonsk, where a sister of Louise was
living, and also without success. Should the doctor of the Hospital
say that an operation is necessary may we tell her to proceed
with it, without the mother's consent? The mother has
always looked after the child. The line separated, I think from
her husband. We cannot find her whereabouts neither.

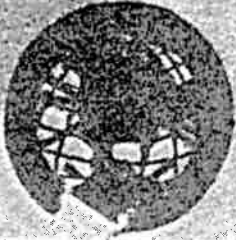

Will the Dept pay for the expenses incurred?

Your obedient servant
V. Grand, S.
Principal

The Secretary,
Dept. of Indian Affairs,
Ottawa.

P.S. The Doctor thinks that the child is suffering from
an abscess in the line.

April 17th

Dear Sir

3390 U

Please find enclosed a Doctor's Certificate in favour of Delia Dokum pupil no 0511. The mother is in prison at Gore Bay. I sent a telegram to Mr. Haddock Tell, Sheriff asking him to let her come if it was possible. She answered saying that she could not do so. Fortunately Mr. Dokum (or John Clark) arrived and when the Doctor advised us to remove the child to the hospital, he sent a Telegram to Mr. Agent Lewis; but fearing the answer would not come in time he asked us to take her to Sudbury as he could not go himself. She left yesterday. Miss Bonneau went with her; she is expected to be accompanied on her return by Louis Mc Graw who has sufficiently recovered to be dismissed from the Hospital.

Your obedient servant

V. Grant, S.J.
Principal.

Industrial School.

Spanish, Ont.

The Secretary,

Dept. of Indian Affairs
Ottawa.

Ottawa, April 19, 1920.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 17th instant enclosing a doctor's certificate regarding the serious illness of Delia Dokum, pupil No. 0511 of the Spanish River Industrial School, whom you have sent to the hospital in Sudbury on the doctor's advice.

In reply I beg to say that your action in this matter is approved. The Department will pay reasonable charges for her as a patient in the public ward during the time she is in the hospital.

It is noted that Louise McGraw, whom you were authorized by telegram of the 16th of March, last, to send to the hospital, has sufficiently recovered to be dismissed from the hospital.

Accounts, in duplicate, covering the hospital charges for these pupils should be forwarded to the Department for payment as soon as both receive their discharge.

Your obedient servant,

Asst. Deputy and Secretary.

Rev. V. Garvel, S.J.,
Principal,
Spanish River Industrial School,
Spanish, Ont.

No 388.664.1 September 1st 1920

Dear Sir

Yours of Sept. 1st 1920 to hand.

Regarding the Codium Sulph (2ozs) signification each ounce represents when combined with Ipecac & ammonia ferrous one or one half (1/2) & two (2) etc of the most effective cough syrup on the market I have consulted several doctors & shown to them my description of cough syrup & they are all agreed that for a place like this where on account of general ^{of a} tendency to coughing most of the boys being ^{of a} ^{of a} or has delicate conditions as regards their respiratory organs it is naturally necessary to be very circum-spect as to what remedies are to be used for the purpose of checking & relieving their coughing which usually becomes troublesome about the beginning of October & continues more or less till April I usually dispense from 5 to 7 Gals. of syrup in a year but when I am able to procure Codium Sulph it is a matter of from 3 1/2 to 5 gals. You are at liberty to send me one ounce (1.0zs) now & I will signation more when I have used the (1oz) it will be cheaper to you than 5 to 7 gals. of cough syrup which is far inferior to my own prescription which does not cause any derangement of the stomach & intestinal the common fault of most of the cough syrups on the market. In regard to the 15 yds of rubber sheeting we have 10 boys who have the report of

within their beds mostly every night & others who
are not so frequent as it is necessary to have a
yard of sleeping for each bed & although I had the
intention of asking for 20 yards, on account of your
letter No. 427. 010-1. March 12th 1920. we have reduced
the amount to 15 yards which will allow 12 yards for
the dormitory & 3 yards for the bathroom which I have
4 beds.

Yours Truly
Fred W. Woodmont, Jr.
Superintendent

Ottawa, Oct. 25th, 1930.

Handwritten signature and scribbles

Sir:-

In accordance with your instructions I visited the Spanish River Industrial School, while on my recent trip in that section.

all

The principal of the school was absent at the time of my visit, having gone to Little Current on business in connection with the school. His assistant, showed me through the various buildings and did everything possible to give me an insight into their work and method of handling their pupils.

In visiting the boys' dormitory I found that the beds were well provided with bedding and although it was in the latter part of the week when I made my visit, the bed clothing was clean. Considerable difficulty is found in keeping some of the beds in proper condition on account of bed wetting by some of the smaller boys. Rubber sheets are used on these beds but the quality of rubber sheeting was very poor and thin. The greater part of the beds were not made up at the time I saw them, about ten a.m. The Asst. Principal explained that this was on account of the necessity of airing the beds.

The boys are provided with plain but warm clothing and have a change of underwear every week. They sleep in their underwear. All the boys get a bath once a week and their heads are kept close cropped.

Their food consists of, for breakfast porridge, milk, bread and butter; dinner, meat, potatoes, bread; on Fridays they have macaroni instead of meat; for supper beans or corn porridge, bread and tea or milk. Butter is given only once a day. The bread is a sort of black bread made from a formula obtained from some medical man who is known to them. It is objected to by the pupils, some of whom say that they cannot eat it at all.

Handwritten notes on the left margin:
In the school
at Spanish River
the boys are
not overworked

The boys take turns at the outside work. Seven or eight are required for milking. Four work at shoe making and repairing. Three work at carpentering. In summer some work in the garden and four or five on the farm. The work is done during one hour after breakfast and one hour before supper. I do not think that any are overworked. The older boys help with the thrashing.

The school location does not appear to me to be a good one from a health standpoint. It is low and boggy. Land that has been cleared for some time is still very boggy. In the mornings there is always a mist hanging over the place. It seems to me to be about the worst possible location for any person who is at all subject to tubercular troubles of any kind.

Handwritten note: meals

Handwritten note: 1 day

I found the girl's school to be in much better condition than the boys'. The building is a better one and is kept much cleaner. The location, however, has the same fault as that of the other school, both being built on the low land down near the lake.

I noticed, when passing the cemetery that there appeared to be quite a number of graves. By looking over the fence I could count over 60 graves and there were probably some others which I could not see on account of the tall grass. That seems to be a great many for such a short time as the school has been in existence. *gaw*

I saw the Simon boys and they appeared to be in good health and not suffering from being underfed. I asked them if they wanted to leave the school and they said not. They may have been influenced by the presence of the teacher at the time.

From what I saw, while at the school, I would consider that its unsatisfactory location was the greatest fault. It seems to me that there is bound to be sickness on this account. The food provided, while plain and not of great variety, is not stinted in quantity. The only complaint in regard to quality might be in the matter of the bread. The clothing provided is sufficient and cleanliness of body is well looked after.

Your obedient servant,

A. F. MacKenzie
Inspector.

OTTAWA

December 18, 1920.

Dear Doctor McGill,-

Incl.

I am sending herewith for analysis a loaf of bread such as is supplied the pupils at one of our large industrial schools in the province of Ontario. Some complaint has been made by the parents as to the quality of the food supplied at this school, and I shall be pleased if you will have this loaf analyzed, and let me have a report as to its food value.

*Complaint
bread*

AM

Yours very truly,

Deputy Superintendent General.

Anthony McGill, Esq., B.A., B.Sc., LL.D.,
F.R.S.C.,
Chief Analyst,
Department of Indian Affairs,
Ottawa.

Ash (Mineral Matter)	1.63%
Fat	1.13%
Crude Fibre	0.77%
Protein (N x 6.25)	11.58%
Carbohydrates (Nitrogen free Extract)	49.59%

Calorific Value per pound 1188 calories
Acidity (cc n/10 alkali per 10 grs. bread) =3cc.

The nutritive value (1188 calories per lb) is about the average though the protein and fibre are slightly higher than usual. This is probably due to the use of a flour containing more of the bran, though otherwise it is just as nutritious as a finer flour. The acidity and taste indicate that the bread is slightly sour, but the analysis does not indicate that the bread should cause ill health.

J. B. Collier

Dominion Analyst.

January 3rd. 1921.

Rev. and Dear Sir,

As you are aware, the Department received some complaints as to the quality of the bread that was being furnished the pupils of the Spanish River Industrial school, and Mr. Phelan was requested, when he visited the institution, to bring home with him a sample loaf which you were kind enough to give to him.

The loaf was submitted to the Chief Government Analyst, of the Department of Trade and Commerce, and I think I cannot do better than to enclose herewith a copy of the report received.

One of the claims made to the Department was that the bread was very often sour. You will notice that the report of the Analyst shows that, while the nutritive value of the sample sent in is about the average, there was evidence of sourness.

As bread is one of the staple articles of diet in all institutions of this kind the greatest care should be taken to see that only that of the best quality is furnished the children. I am sure that you will exercise the necessary care to see that the wishes of the Department in this respect are carried out.

Yours very truly,

Rev. F. Gravel, C.J.,
Principal,
Spanish Industrial School,
Spanish, Ont.

Deputy Superintendent General.

Jan. 6th 1921

Dear _____

584867
1000

730
125

I acknowledge the receipt of your letter of the 3rd inst., and in answer I beg to say that there are no second grade flour in our bread now any more than other than

2nd there are a half a dozen bags of bran or whole wheat per hundred bags of flour, first grade.

3rd That this small quantity of bran, or whole wheat, was added to the flour at the request of our Doctor. Many children who are not used to eat bread at home, suffer from constipation when they are here; and to do away with this, which after a while become sufficient, Dr. Que Dermott told us that we should return to the brown bread.

If the Dept. think that we should give the children pure white bread only I am ready to give it to them; it was not a question of economy that prompted us to give them brown bread; but a question of health. Practically there is no economy in children eat more of the brown than of the pure white bread. I can say that I have never heard a boy or a girl complain about it. They prefer the brown to the white. I can also say that to my knowledge we never gave sour bread to the children.

Now many of our Chief Government Recipients when the supply of this loaf of bread was begun, they were given to the children, not to the staff any brown bread more than three or four days old; because we know that on account of the bran especially, this bread becomes sour in a short time.

Indian Affairs, Ottawa, Jan 6 1921, File 172, Page 14

The sample given to Mr. Phelan has been baked exactly 40 hours before it left the house. Therefore I would be glad to know when the analysis was made, i.e. begun, as this may explain why it was found slightly sour.

Your letter induces me to think that there are other complaints as you say that "one of the claims made to the Dept. was that the bread was very often sour."

I would be much obliged to you if you would kindly let me know of these other claims.

Your obedient servant

V. Grant, S. P. Principal

Dear Sir,-

I was at Guelph the early part of this week, taking over some supplies from the Soldiers' Civil Re-Establishment. Among other things I obtained a number of manual training sets consisting of the bench and necessary tools. Four of these sets I ordered to be shipped to you, freight charges collect. There will be no charge for the goods themselves. I am sure that you will find these of great value in your work with the boys of your institution. We are taking over some other supplies, which will be distributed at a later date. Will you kindly advise the Department when this shipment arrives.

Yours very truly,

W. F. ...

Secretary to the Deputy.

Dr. Mc Dermott was here yesterday to examine a few children who suffer from a light attack of grip. He found one, little Louis DeLeon, pupil No 593, who should be sent to the hospital. It is a case of pleurisy. Dr. Mc Dermott found pus in the lower part of his right lung and advised me to send a word to the mother of the child to have permission to treat him in the hospital. It may take a day or two before I can reach the mother. May I send the boy to St. Louis and have him treated there in Saint-Joseph Hospital? +

Your obedient servant
 V. Grand, S. J. Principal
 Industrial School,
 Spanish, Ont.

The Secretary,
 Dept. of Justice Affairs.

Very
 yours
 Louis DeLeon

Public Archives of Canada

Ottawa, March 17, 1921.

Reverend Sir,-

I have to acknowledge the receipt of your letter of the 15th instant, in which you state that Dr. McDermott recommends that Louis Debeau, pupil No. 593, be sent to the hospital at Sudbury.

In reply I beg to say that you may send this boy to the hospital at that point. The Department will pay reasonable charges for him as a patient in the public ward during the time he is in the hospital.

It is noted that you are endeavouring to locate his mother in order to advise her regarding her son's condition.

Accounts, in duplicate, covering the hospital charges for this pupil should be certified by you and forwarded to the Department for payment.

Your obedient servant

J. D. McLean.

Indian Affairs, (11-1-1921), Vol. 1, Part 11

385263

APR 11 1921
REVISED

April 2, 1921

385263

Dear Sir,

I acknowledge the receipt of your letter of March, 31st No. 385664/p. re influenza.

The answer I am very glad to say that there are only two children still in bed to-day, one boy and one girl, and both are expected to be up in a few days.

During the month of March there were 62 cases treated in the infirmary. Fortunately the attack of influenza was not severe: much coughing, but little fever. After three or four days they were better. None relapsed. Those who had a beginning of pleurisy, 8, of pneumonia, 6, are now out with the others, but kept under special care and diet. Classes were interrupted three days in all.

After the mild winter we had and following sudden change in the temperature it was expected that some kind of disease would result. It came quite suddenly just the same; but thank God, it was not severe.

Doctor Mc Dermott hopes that it will not be necessary to send pupil to St. Louis DeLoane to bed lay for an operation. This boy is on bed just now and is doing very much better. I keep his mother well informed.

Yours obedient servant

V. Grand, S. J.
