Indian Residential School,
Spanish Ont.,

4th June 1932.

Department of Indian Affairs:

Gentlemen:

I regret to report an emergency
hospital case. Paul GrosLouis NO. 897 cut off a finger ^{yesterday} while sawing
wood and was sent to Espanola on the local.

Sincerely,

J. Howitt
J. Howitt.

Indian Residential School,
Spanish Ontario,
May 27th 1932.

Dear Mr. Grosblouis:

The Indian Dept at Ottawa has written us granting the discharge of your son Paul Henry who is at present residing here, provided his father can provide for him.

Paul Henry is very anxious to go home this year and I would like you to advise me where you would like him to be sent.

Sincerely Yours,

J. Howitt
(J. Howitt).

D. M. M. M. M.

Montreal, June 6th 1932
1663 Mount Royal East.

To the Superintendent of Indian Affairs
Ottawa

Dear Sir-

I have just received a communication from the Indian Residential School, signed J. Howitt, Director, Spanish, Queb., which reads as herewith.

As I was just preparing to have him come back, although it is a difficult matter for me at present - but I am expecting a position soon, I received a letter dated the 3rd of June informing me that my son had had a finger cut off from his principal hand, that is the right one.

I am very angry of that, I sent my child to Spanish without any wounds, he will return here without a finger that will be missing all through his future life.

I have no details yet but he must be seriously wounded and if such is the case I will hold you responsible as the community has having used my child to work in a dangerous position which might have imperiled his life. A child of less than 5 years on a sawing machine & express.

Hoping that you will hold a strict investigation as I am anxiously awaiting news about our information as to whether the boy is seriously wounded or finger completely off. We expect a good settlement. It will not be pleasant to see my child return wounded. This is intolerable. I remain your truly

Yours truly,
J. M. G. L.

Ottawa, June 13th, 1932.

Reverend Sir,-

I desire to refer to previous correspondence with reference to the discharge of Paul Henri Grosleuis from the Spanish Indian Residential School.

The Department is now in receipt of a letter from his father, stating that he has just been advised regarding the boy losing a finger on the 3rd instant. It is noted that you reported this in your letter of the 4th instant.

Please let the Department have full details regarding this accident as soon as possible. You should state how the boy was employed when it occurred, whether he was under the supervision of any member of the staff at the time and whether or not there was any carelessness on his own part. Please let me know, also, if this boy lost the whole or only part of his finger and advise his condition at the present time and when the medical officer considers he will be able to go home.

Your obedient servant,

Russell T. Ferrier.
Supt. of Indian Education.

Rev. Jas. Howitt, S.J.,
Principal,
Indian Residential School,
Spanish, Ont.

TOTAL

I Herby Certify that this Voucher is correct, that the material has been supplied, the work performed and that the charges are fair and just; also that the expenditure has been incurred legitimately and that each item of the same is a fair and just charge against the Government of Canada.

Agent

Nov. 28th, 33

Dear Sir

In your letter 36-0-13 Feb. 7th, 1930 I read: "It is thought that in urgent cases, it might be possible to have the local medical officer make any necessary extractions" as I had two urgent cases I followed this direction by having two boys Lawrence Canadian n° 818 and Lawrence Francis n° 986 attended by a dentist Dr. C. Marshall who comes to Flaming over two months. I asked the doctor to be satisfied with one dollar for the amalgam filling of Lawrence Canadian and twenty five cents for the extraction of a first tooth of Lawrence Francis. The work was well done and I enclose the bill of Dr. Marshall in triplicate.

Yours very truly

Paul Murray

Reverend Sir:

I have your letter of the 14th instant, requesting that dental attention be given to the pupils of the Spanish Indian Residential School.

In reply I have to say that you may arrange with Dr. W. E. Boyd, Espanola, Ont., to perform the dental work absolutely urgent at the present time. The work should be done at the school. Our funds for dental services are extremely limited, and the total expenditure incurred for this purpose at the Spanish School must not exceed the sum of \$200. Dr. Boyd will be allowed the same rates as previously paid him, viz.: \$1.00 per amalgam filling; 50¢ in the case of each extraction of permanent teeth; and 25¢ for each extraction of first teeth. In the case of first teeth, no dental attention with the exception of extraction can be allowed. Dr. Boyd is to supply all materials and he will be allowed his actual travelling expenses. I would request that the new pupils entering the school receive first consideration by the dentist.

Please have Dr. Boyd prepare a list, in triplicate, on a medical account form, stating the name of each pupil receiving attention and the number of fillings and extractions in each case. He should also state thereon the mileage travelled by him and the amount charged, which must not exceed 7¢ per mile. This account should be certified by you and forwarded to the Department for payment.

You may arrange for the carrying out of the dental work absolutely urgent at the present time. This should be done at an early date, but it should be distinctly understood that the total cost is not to exceed the amount stated above, viz.: \$200.

Your obedient servant,

A . P. MacKenzie,
Secretary.

Reverend Paul Mery, S. J.,
Principal,
Indian Residential School,
Spanish, Ont.

Dr. H. H. Harvie

Espanola, Ont.

March 14/34.

Rev. Father Tracy,
Spanish Residential School,
Spanish, Ontario.

Dear Father Tracy:-

You have in your school the following
who are in urgent need of Tonsillectomies:

Clara Bissailon
Cristine Eskibog
Elizabeth Gabeau
Madona Asseneve
Annie Trudeau

The Above all have badly diseased
tonsils and heart conditions.

Yours very truly,

H. H. Harvie

Dr. H. H. Harvie,

H.H./J.M.

Speltman

March 27th, 1934.

Reverend Sir:-

In reply to your letter of March 16th I may say that funds will be available immediately after April 1st to provide for the removal of the tonsils of the five pupils mentioned in that letter. You have had good arrangements with Dr. Harvie for this sort of work for some time past and it will be in order for you to make the same arrangements on this occasion.

GH

Mackenzie

Principal of the Indian Residential School,
Spanish, Ontario

Indian Affairs. (RC. 10, Volume 6219, File 471-13, part 2)

May 12th, 1934

Dear Sir:

Doctor Boyd has written to the effect that Mrs. Dave Solomon of Spanish is to have her teeth removed and that you have authority for this procedure. The Department would be pleased if you would see that this is done. Having only the name of this woman it is somewhat difficult to trace up the authority you have received, or the band she may belong to in a district where the Indians from many bands are mixed together.

gll

The Department is prepared to pay for the removal of this woman's teeth, and will, apparently be called upon to replace them by an artificial set. It is reluctant, however, to pay her expenses to go to the dentist, and does not wish to do so unless you find that there is no way of her going there by her own means.

gsm

Perhaps you would be good enough to endorse Doctor Boyd's account in this case, and to enter upon it the name of the band to which the woman belongs. It should go to her Indian Agent.

Yours truly,

A. F. MacKenzie
Secretary

DEPT. OF INDIAN AFFAIRS
MAY 18 1934
RECORDS

Dear Sir:-

Referring to your letter of May 12/34
No 36-0-13D re Mrs. Dave Solomon. I received a letter
dated Dec. 9/33 from Mr. Rothera authorizing extraction
of her teeth by Dr. Boyd. She belongs to the Spanish
River Band.

I will be pleased to see that it is carried out
with the understanding that if she comes to Espanola she
will have her transportation expenses to pay. Her husband
does occasional work on the Government road so I think she
perhaps can pay her transportation.

Will do as you suggest re Dr. Boyd's account. I
may say in Mr. Rothera's letter of Dec. 9/33 he stated the
Department would be unwilling to pay for artificial teeth
but your letter indicates that perhaps you would if necessary.

Yours very truly,

H. H. Harvie

Dr. H. H. Harvie.

HHH/JM.

Dear Sir

June 23rd, 34

On Friday 15th at 8.00 o'clock in the morning 979 Paul McLeod from the Spanish Branch died suddenly. He had been confined in bed for two weeks on account of a severe cold. I was going to call Dr. Harvey from Espanola but as his temperature was normal I changed my mind. During the night temperature rose suddenly very high and the boy had great pains in his chest. The infirmarian was up all the night. In the morning he seemed better again fell into sleep, and unexpectedly while the infirmarian was away a few minutes he died. The coroner sent by Dr. Harvey gave the verdict here enclosed. I received it only this morning. This is the reason why I did not send this sad news earlier.

yours truly

July 19th 34

Dear Sir

I had to-day Dr. Harvie's visit and we went over our requisition item by item as recommended. You may find the requisition of rubbing alcohol a little too much but Dr. Harvie thought that I need at least as much. The Department's conclusion that Indians prescribe for themselves is true to this extent that Dr. Harvie lives so far and so much out of reach for those across the river, that we give sometimes v.g. some rough medicine or liquid paraffin oil to a subject we know from a doctor's previous examination, men and with appendicitis. If the Department wants us to change our policy we will do so. Anyhow I have instructed the Informarian to give medicine in such cases in small quantities.

Yours truly
Paul Méry

Ottawa

Dec 18th, 34

Dear Sir

The dentist Dr. W. E. Froyd has not visited the school for one year now. He writes me asking if he could pay a visit to the school early in January. I shall remind the Department that every two months Dr. Marshall comes to Spanish and we send him urgent cases. However Dr. Froyd's visit may prevent much trouble and therefore I endorse his letter here annexed.

Yours truly

Paul Mervin J.

Rev. Paul Mervin J.

Ottawa, December 27, 1934.

Reverend Sir:

I have your letter of the 18th instant, enclosing a communication which you received from Dr. W. E. Boyd, Espanola, Ont., regarding dental attention required by the pupils of the Spanish Indian Residential School.

In this connection I have to say that you may arrange with Dr. Boyd to perform the dental work absolutely urgent at the present time for the pupils at the Boys' and Girls Schools. The Department will allow Dr. Boyd remuneration at the rate of \$30 per day and reasonable travelling expenses. The work should be performed at the school - the dentist to supply all materials. It is considered that not more than 5 days' work should be necessary at this time. The Department is now paying dentists at a per diem rate instead of, as formerly, a fee for each extraction and filling.

It is expected that the dentist will devote full time to the work while at the school, and you should assist him in having the pupils ready for treatment, in order that there will be no delay in his work.

The dentist should prepare a list, showing the name of each pupil receiving treatment and the work performed in each case. He should also prepare an account for his services at the rate mentioned. The account, with the list of work done, should be handed to you, to be certified in the usual manner and forwarded to the Department for payment.

It is noted that Dr. Boyd will be able to perform the dental work early in the new year. Our funds are extremely limited, and it is considered that five days should be sufficient to carry out all the work required by the pupils at the present time.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Jan 31st, 35

Dear Sir

In your letter referred above you told me that you considered five days sufficient for the dentist's work.

Dr. Floyd worked two days and a half in the boys' school and the same amount of time in the girls'. There remain among those examined 14 girls to be attended to and besides 42 girls not yet examined. The dentist asks me if he should finish his work. I told him that I would ask the Department as soon as possible and that I shall give him an answer at the beginning of next week.

If possible kindly give me authorization to have Dr. Floyd see any more

Yours truly

To The Secretary,
Department of Indian Affairs,
Ottawa.

Dear Sir:

I wish gratefully to acknowledge the receipt of the material asked for in June requisition. All arrived in good order with the exception of 1000 Sodium Iodine, 1 gr. and 100 temperature charts which were likely overlooked. Also the Castile soap, 1 doz. which I need for giving enema.

The douche cans were sent but the fittings are those for hot-water bottles, and so are useless. Kindly send fittings for the two douche cans.

Yours respectfully,

Joe St. James

Indian Affairs. (RG 10, Volume 6219, file 471-13, part 2)

Copy sent to Miss Beatrice Cousins

October 21st, 1935

Dear Sir:

Some dental work is required at the Indian Residential School at Spanish. The girls have been examined recently by one of the departmental nurses, Miss B. Cousins, who finds that something in the neighbourhood of 100 fillings are likely to be required. She did not examine the boys, but I think it likely that 3 or 4 days' work will be required. The Department now allows a rate of \$30.00 per day for clinic work of this nature, plus all out of pocket expenses.

It is intended that Miss Cousins should return to Spanish at an early date, and I hope it will be possible for you to conduct the clinic when she is there to assist.

At Serpent River Reserve, which is about 8 miles north of Spanish, there are 15 or 20 children requiring dental attention. The Department is willing to authorize a one-day clinic there, with the understanding that school children shall be given the preference but that adults in urgent need of dental service should receive attention if time allows on the day set for the clinic. Miss Cousins will arrange the clinic there with the cooperation of the school teacher. I would suggest Friday, October 25th, for the work at Serpent River, and October 28th, 29th and 30th for the residential schools at Spanish.

W.E. Boyd, Esq., D.D.S.,
Espanola,
Ontario.

Miss Cousins is at present working in the vicinity of Sault Ste. Marie. I am instructing her to arrange for a clinic at Serpent River school on Friday, as soon as she hears from you. I presume you will be able to notify her not later than October 23rd, as to whether you will be able to undertake this work or not. Her address is - c/o Mr. Indian Agent Sims, Sault Ste. Marie, Ont.

If you are not able to undertake this work mentioned above, please notify the Department at Ottawa and Miss Cousins at Sault Ste. Marie, immediately.

Yours truly,

T. R. L. MacInnes
Acting Secretary

October 9th 1935.

P. Cousins.

Copy sent to Miss Cousins

October 26th, 1935

Reverend Sir:

I am requesting Doctor Harvie to examine pupils of the Girls School who were reported by the nurse as having enlarged tonsils. It may be that some of these require operation, and possibly some of the boys require similar attention.

Miss Moodie has mentioned the excellent infirmary accommodation at Spanish, and if there are a number of pupils requiring tonsillectomy this would seem to be a favourable time to have the work done as the Department is willing to assign Miss Beatrice Cousins for full time duty at the school for a few days and also to authorize Doctor Harvie to engage a nurse from Espanola if a tonsil clinic can be arranged at Spanish. Our suggestion is that Doctor Harvie's time should be conserved by Miss Cousins making the general examination and referring cases to him for his decision. She is a very competent nurse and a good organizer, and I feel that the clinic can be arranged without disturbing school routine for any pupils save the patients, and every effort would be made to avoid disturbance of the staff.

K.M.
[Signature]

Doctor Harvie and Miss Cousins are being requested to hold themselves in readiness to organize the suggested clinic if you have no objection. They will consult with you and Miss St. James and the final decision as to whether the clinic will be held at the Residential School or not rests with you. The suggested arrangement is, however, the only one for which funds are available at present.

I wish to make it clear that it is not necessary to consult the Department further in this connection, as the work should be done immediately, if at all, in order to take advantage of the fact that Miss Cousins is in your district.

Yours truly,

Reverend Father Mery,
Principal, Residential School,
Spanish, Ont.

Indian Affairs. (RG 10, Volume 6219, file 471-13, part 2)

Copy sent to Miss Cousins

Copy placed on 28-36-2^A

October 26th, 1935

Dear Sir:

In the report of Nurse Cousins of her examination of the girls at Spanish Residential School, 5 are mentioned as having enlarged tonsils. She did not examine the boys at the time of her first visit, but it is likely that the same report could be made about at least as many of them.

Will you please arrange to go to Spanish during the coming week, with a view to planning a tonsil clinic at the School if this is found to be necessary. It is expected that Miss Cousins will be on duty there the first three or four days of the week, as a dental clinic has been planned. We are not absolutely certain of the dates, as the details of arrangement were left to Doctor Boyd and Miss Cousins. I would suggest that you ascertain from the School authorities or Doctor Boyd when the dental work is completed, as we do not wish to impose on the good nature of the Principal by disorganizing his school routine too greatly.

I have written Reverend Father Mery, telling him that we wish to conserve your time by having Miss Cousins make the general examination of pupils and referring those requiring attention to you, on the occasion of your visit at the school. I have made it clear to him that the decision as to whether a clinic should be held at the school or not rests with him. The Department is

H.H. Harvie, Esq., M.D.,
Espanola
Ont.

willing to assign Miss Cousins to full time duty for a few days, and is willing also to authorize you to engage a nurse from Espanola to remain at the School with Nurse Cousins for a few days if the clinic takes place. I presume Doctor Berry would give the anaesthetics, and it is desired that he or you should remain at the School over night as a precautionary measure.

You may not find that there are a sufficient number of pupils requiring tonsillectomy to justify the proposed clinic, in which case the idea may be dropped for the present as funds are not available to carry it out under other circumstances.

On the occasion of your preliminary visit in this connection, please examine all pupils reported as having sore eyes. Miss Cousins will be able to give you their names. I should also like to have a report from you regarding goitre in the Schools and the possibility of treatment.

The Department wishes to take advantage of Miss Cousins' presence in the district, and it is desirable that as much work as possible should be done not only for the pupils of the Residential Schools but for the Indians in all Reserves under your care.

Yours truly,

T. R. L. MacInnes
Acting Secretary

Re. letter 36-0-15^D Nov 26th, 35

Dear Sir

We had yesterday six boys and four girls
operated very successfully.

The cooperation between the medical staff
and the two school sections has been perfect.

Of course I leave to Miss Cousin to tell
you about the technical side of the work.

Yours Truly

Paul Mery S.J.

Rev. Paul Mery S.J.

W. J. Spanish Receiver

NOV 12 1931
Tribal

Doctor W. J. Harris today examined the following children for sore eyes:

1. George Beaudry
2. Angus Beaudry
3. James Beaudry
4. Harry Diabo
5. Gabriel Hayes
6. John Hayes
7. Lawrence Jones
8. David Mitchell
9. William Reskewe
10. Archie Trudeau
11. Ernest Phillips
12. Simon Bebrnisse

Of the above list the doctor diagnosed James Beaudry and John Hayes as Trachoma and the remainder as Suspects. He advised the School to isolate John Hayes until further notice from him and to treat the others as Trachoma until he advises them to the contrary.

Dear Sirs:-

There are several boys at the Spanish Residential School who have nocturnal incontinence that does not respond to incontinence tablets. I thought if a supply of Potassium Citrate and Tincture of Hyoscyamus were sent by the department I would prescribe a mixture that might act better.

Yours truly,

H. H. Harvie

Dear Sirs:-

In connection with the tonsil clinic recently held at the Residential School, Spanish, I wish to point out the extra effort, time and expense it meant to me.

Firstly, I made a trip and inspected some 50 prospective cases on Nov. 1st.

Secondly, I made a trip on Nov. 2nd to carry out the operations and remained in the School overnight leaving at noon on November 3rd.

Thirdly, it was necessary for Dr. Berry to take a second car in order to return to Espanola the same day as the practice was left alone all day, so this meant a trip for him to give anaesthetics.

Fourthly, I borrowed a bundle of sterilized sponges from Hospital here which were returned, borrowed all necessary instruments also McKesson suction and ether vaporizer apparatus and head light from Hospital and burned out a bulb of head light, used about 10 or 11 feet of Hospital #8 snare wire, used 3 Ethyl Chloride 100 grams tubes and $\frac{1}{4}$ lb. chloroform of my own, took my own sterilized gowns, and also took hemostatic serum, horse serum, cat-gut and linen for emergencies but were not necessary to use.

I have indicated the above as I believe you will agree it is only fair I should receive some remuneration other than the \$50.00 anaesthetic fees for Dr. Berry's services.

Yours truly,

[Handwritten signature: H. H. Harvie]

Dr. H. H. Harvie.

HHH/AO

November 16th, 1935

Dear Sir:

In reply to your letter of November 8th, the Department must point out that the salary paid you for attendance on Indians is very substantial, and in fact is paid for the very services described in that letter.

E.H.

It would not pay to send any ordinary quantity of potassium citrate mixture to the school at Spanish. Presumably you have such supplies, and the Department would be pleased if you would furnish the quantity required for present use. You may charge this to the Department by sending a voucher or account to the principal of the Residential School, and see that the necessary drugs are included in the next requisition.

Yours truly,

A. F. MacKenzie

Department Of Indian Affairs,
Ottawa.

Dear Sirs:-

I have your letter of Oct. 26/35 No. 36-0-13D and carried out your requests.

I visited the Spanish Residential School on Nov. 1st. and made arrangements for a tonsil clinic the following day Nov. 2nd. On Nov. 2nd we performed ten tonsillectomies on 6 boys & 4 girls in the Girls' Infirmary. There are still remaining about 35 cases that some day would be the better for being done. I remained at the School overnight as requested. In fact, I was at the School Nov. 1st, 2nd, 3rd., 6th, and 7th, so far this month.

I examined 18 cases of sore eyes Miss Cousins had picked out and I believe found 2 positive cases of trachoma amongst the boys and 10 other suspicious ones and 6 suspicious ones amongst the girls. One boy had a particularly bad eye and I thought it better to isolate him from the rest to see how he responds to treatment and to await word from the Department as to whether you wish anything further done. His eye was discharging considerably, his lids were acutely congested and he had a history of possible trachoma in the family. We have instituted treatment for all eighteen. The boys' school does not seem to have the necessary supplies so I suggested they borrow sufficient from the Girls' School until the Department have time to send some to them.

There are about 50 cases of enlarged thyroid in each school and I have suggested that each school requisition for 5000 Sodium Iodide tablets on arrival of which we will commence treatment for them. Sometime ago I had the Girls' School ~~requisition for them~~ requisition for them but the Department at that time replied that they did not supply them but I hope you will now.

I would like to pass a few remarks re Miss Cousins'

Dept. of Indian Affairs.

work. She performed a wonderful job in my opinion and I believe got every cooperation. She is capable, diplomatic and untiring in her efforts and I believe her work will stimulate further cooperation interest and resultant good in the treatment of Indians. ~~If it~~ could be arranged that a girl of her type could visit and inspect the Reserves and School here annually, I am sure it would meet with fruitful results.

While on this point I would like to suggest that the Department notify us in advance should an inspection take place again in order that we can arrange our work so that we can lend every cooperation.

Yours very truly,

H. H. Harvie

R

Oct. 19th 36

Dear Sir

Mitchell Ezare no 849 for two years has suffered from a hernia but, through shyness I suppose, never spoke of it to anybody. Lately this hernia has developed a complete indirect inguinal hernia. Will you kindly authorize me to send Mitchell Ezare to the Red Cross Hospital at Espanola for treatment by Dr. Harvie?

Another boy Jack White no 1077 who last month came from St. Regis has a small button lodged in a cavity of the nose. Nine doctors, five from Copenhagen and four from Cornwall he tells us, tried to get it out but unsuccessfully. The last attempt was made just before he left for Espanola by a doctor from Cornwall. May I put this case in the hands of Dr. Harvie also?

Yours truly

P. Méry

M. J. Kennedy

Jan 9th 36

Dear Sir

There are two boys and one girl whose very
poor eyes require a special attention from
an eye-specialist. There are also other
cases not so urgent.

Will you kindly allow Dr. M. J.
Kennedy from Sudbury to come to
Spanish to attend these cases?

Yours truly

Paul M. J. Kennedy

Rev. P. M. éry S. J.

January 13th, 1937.

Dear Sir:

The Reverend Principal of the Spanish Indian Residential School reports that one boy and one girl have very sore eyes and that there are several other cases not so urgent which would be the better for the attention of an eye specialist and asks whether he may bring Doctor M. J. Kennedy from Sudbury.

The Department would like to think that your resources are exhausted before bringing in the specialist and would prefer to do so, if necessary, on your advice. Kindly look into the matter and give the Reverend Principal a clinical report on these cases which he may forward to the Department.

Yours truly,

T. R. L. MacInnes

EX'D.

Ottawa, March 10th, 1937.

Dear Sir,-

Enclosed herewith is a prescription from Dr. M. J. Kennedy, of Sudbury, for eye-glasses required by Angus Bwandy, an Indian of Thessalon Agency and a pupil of the Spanish Indian Residential School at Spanish. The usual substantial and inexpensive type of metal frame should be used. Delivery of the glasses should be made to this Department in the Booth Building, Room 706, together with your account in three copies.

Yours truly,

T. R. L. MacInnes,
Secretary.

BY D.

May 13, 1937.

Reverend Sir:

This will be your authority to arrange for a dental clinic at the Spanish Indian Residential School. The work is to be offered to Doctor W. E. Boyd, of Espanola, and the fee allowed is \$30.00 per day, the dentist to provide his own materials for extractions and simple fillings. A maximum of six days' work is authorized by this letter. If this does not nearly cover the requirements it might be possible to have another clinic in the fall. Probably you will not wish to have more than this number of days done at the present time.

Doctor Boyd may be allowed actual return railway fare from Espanola to Spanish to compensate him for his outlay in travelling. It is assumed that he will be accommodated at the school without charge.

His account should be presented in the manner usual to Doctors and dentists and on the correct stationery. It is not necessary that the account should contain the names of pupils treated, but the number of fillings and extractions must be given. You will wish to keep a record of the work done for each pupil.

The Department anticipates that good work will be done and, from experience in other places, has come to expect rather a long day's work at these

Rev. P. Mery
Principal
Indian Residential School
Spanish, Ont.

clinics. Every effort should be made to organize the work in advance so that Doctor Boyd's time may not be taken up by examination of pupils who obviously require his services.

Yours very truly,

T. R. L. MacInnes

Méty

June 7th, 37

Dear Sir

There are ~~many~~ cases of tonsillitis at
the girls' school. Dr. H. H. Harvie asked
me to take up the matter with the
Department. The most urgent cases are
the following:

- 0935 Ida Trudeau
- 0954 Susan Lazare
- 0967 Margaret Fox
- 0992 Margaret Niganagwina
- 0994 Philomen Jordan
- 0995 Irene Jordan
- 01000 Helen Solomon.

Will you kindly see what could be
done for those children?

Yours truly

Paul Méty

Rev. Paul Méty S.

EX'D.

June 11, 1937.

Reverend Sir:

Reference your letter June 7
Tonsil clinic Spanish Indian Residential School.

I scarcely think you expect the Department to authorize seven tonsil operations without the certificate of the Medical Officer and without knowing that the parents of the children concerned have given their consent to the operations. It is not prepared to authorize the clinic without these assurances. It would be wise for you to obtain them without too much delay in view of the early close of the school year. To remove any possible misunderstanding which seems to have existed in the past it seems necessary that I point out clearly the authority which both you and the Department must have for surgical operations, admissions to hospital etc. is that of the Physician.

Yours truly,

T. R. L. MacInnes
 T. R. L. MacInnes

June 21, 1937.

Rev. Father Mery
Principal
Spanish Residential School,
Spanish, Ont.

Dear Father Mery:

There are 2 children, Florence Meganegone, age 11 yrs. and Clara Bissailon age 14, in your Girls' School suffering from active pulmonary tuberculosis as confirmed by the chest clinic held at Espanola June 12/37.

The chest clinic recommended that these 2 children be placed in a Sanatorium. In any event these 2 children should be discharged from the school as there is no arrangement to segregate and treat tuberculosis cases there.

Yours truly,

Dr. H.H. Harvie.

HHH/AO

July 5, 1937

EX-111

Reverend Sir:

Consideration of your report of June 22 on the cases of Clara Bisailon and Florence Neganegone have been delayed owing to the meeting at Ottawa of a Committee on Indian tuberculosis which has taken precedence over almost all other work. It is presumed that the children concerned have gone home for the summer holidays and the Department wishes that they would be discharged from school so they will then become a problem to be dealt with on their Reserves and can be replaced by two well children.

Yours truly,

T. R. L. MacInnes
Secretary

Rev. Paul Méry,
Principal
Spanish Residential School,
Spanish, Ont.

LM

9-36

November 5th, 1935

Dear Sir:

There has been considerable discussion of the services and compensation of Doctors Harvie and Langlois at Espanola and Blind River respectively. Doctor Harvie receives a salary of \$2000. per annum for attendance on the Spanish River and Serpent River Reserves and at the Indian Residential School. It is not found that he has rendered any accounts for extra services to these people but he has rendered some accounts for work done for Indians not belonging to any of these groups. Doctor Langlois receives \$600. for attendance at Blind River and he has rendered many accounts for other Indians including some for those of Serpent River.

It was, without doubt, the Department's intention that the salaries paid these two doctors should cover all professional services rendered by them to Indians and the Department means to adhere to this intention both as regards accounts which may now be unpaid and as regards the future. Kindly communicate this information to the doctors concerned.

Yours truly,

A. F. MacKenzie
Secretary

36-0-13

November 12, 1937.

Secretary,
Indian Affairs Branch,
Department of Mines & Resources,
Dear Sir:

All children in the villages about here have been inoculated for diphtheria, scarlet fever and small-pox. It is the general opinion that the boys and girls of the Indian School ought to be treated likewise.

The opinion is emphasized now that a neighbor's child has died and a report from Toronto shows that the cause of death was diphtheria.

I would urge that our children be inoculated here as we are not prepared for an epidemic.

Yours truly,

J. Howitt

EXD.

36-0-13

November 17th, 1937.

Reverend Sir,-

In reply to your letter of November 12th, I may say that the Department wishes as you do to avoid an outbreak of diphtheria at the school under your charge. You do not say, however, whether the proposed measure is inoculation with diphtheria antitoxin as a temporary measure, or treatment by toxoid as a permanent protection. The latter is preferable, for obvious reasons, if there is no apparent immediate danger.

This is a matter to be taken up with Doctor Harvie, but not for further correspondence. He will scarcely expect an additional fee for the work, and he can procure the necessary materials. If so asked, you may accept an account from the Provincial Government or other usual source of supply.

Yours truly,

T.R.L. MacInnes,
Secretary.

Reverend J. Howitt, S.J.,

March 7th, 1938.

~~CONFIDENTIAL~~
The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,
Dear Sir:

About a month ago Jane Roy 01025
went to the hospital at the request of Dr. Harvie. He later ordered
her back to the school for a rest and special diet and requires
that she again go for an X-ray and possible operation.

In view of your letter 36-0-13 of June
11, 1937, quote "---it seems necessary that I point out that the
authority that both you and the Department must have for surgical
operations, admissions to hospital etc. is that of the Physician."
I am not sure whether or not I should ask permission from the
department. I know we must first obtain leave of the parents for
an operation.

Yours truly,

J. Howitt
J. Howitt.

Dr. H. H. Harvie

Espanola, Ont.

March 28th, 1938.

Miss Flora Huot
St. Joseph's Residential School
Spanish, Ont.

Dear Miss Huot:

I was glad to receive your letter re your patient.

Your mastoid case is apparently better. I would continue with the same treatment and if no better or condition becomes worse you might send her here as I think perhaps we could deal with it.

I am of the opinion you should order 1000 Sulphonamide (~~S.S.~~) tablets and have on hand for such cases as Catherine Keiamesens. She should take 2 or 3 a day for a week or 10 days. Another thing you ~~may~~ might give her is Stannoxy tablets one 3 times a day after meals.

You are doing everything possible for Agatha Jacobs except scarlet fever anti-toxin or erysipelas vaccine. You might give her the latter should she not show improvement shortly. I think I would give her the aspirin and if her pulse is over 110 some preparation of Digitalis.

I have enclosed fever chart.

Yours truly,

Dr. H. H. Harvie.

M. Armstrong

20 August, 1938.

The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,
Dear Sir:

Isaac Thompson 1078 is expected to die within a few days of tubercular meningitis and his mother phoned that she would like the body sent to her at the following address;

Mrs Catherine Lacore, Sandy Houselle, R.R. 1
Box 20, Cornwall, Ontario.

Does the Department approve of this, or shall we bury the boy at the school?
An early answer would be appreciated.

*No comment to
made*

Yours truly,

J. Howitt
J. Howitt.

EXD.

Ottawa, August 23, 1938.

Reverend Sir:

In acknowledgement of your letter of the 20th instant, reporting the gravity of the illness of Isaac Thompson, I wish to state that the suggestion to send the body home, if the boy should die, has received sympathetic consideration. I have to point out, however, that it is not the practice of the Department to send bodies of Indians by rail excepting under very exceptional circumstances. Bodies so shipped have to be properly prepared by the undertakers for transshipment under the laws of the province, and the expense of a long journey, such as this would be, would entail an expenditure which the Department does not feel warranted in authorizing.

Yours very truly,

R. A. Hoey,
Supt. of Welfare & Training.

Reverend J. Howitt, S.J.,
Principal,
Spanish Indian Residential School,
Spanish, Ontario.

December 14th, 1938.

Dear Sir,-

I have your letter of December 12th, requesting that 30 additional gallons of cod liver oil be supplied for the Girls' Section of your school. In reply, I have to point out that 70 gallons of this oil were shipped in October last for use of the school in general. This quantity was based on one gallon for every four pupils for a period of six months and is also the basis on which all other residential schools are supplied. It is proposed to adhere to this measure unless some very special circumstance should arise in a particular school which should be reported in detail to this Department for consideration.

Yours truly,

T. R. L. MacInnes
T. R. L. MacInnes,

OF
MINES AND RESOURCES
INDIAN AFFAIRS BRANCHVillage des Hurons, Que.
December 27th, 1933To The Secretary
Departement of Indian Affairs,
Ottawa, Onte

Dear Sir;

I had the visit to day of Paul Henry GrosLouis, who until some five years back resided with his father in Montreal. At that time his father died, and being an orphan, on his father's and mother's side, he has more or less lived the life of trying to make his own living, which he has succeeded to the best of his ability, staying most of these years in the United States of America, consequently has done what most of the Indians don't by looking after himself, without the Department's help.

He is yet a poor man at that, and married in Los Angeles, Cal, and has been a sailor aboard steamships. Now here's the object of this letter. In 1930 your Department sent him to St Peter Claver Indian School at Spanish, Ont, where he resided two years, or until July 1932, where he met with an accident, losing one whole finger and joint, the index in the right hand, while working in the saw mill. After being discharged from the Hospital he was sent back home to Montreal, where his father placed a complaint, intending to sue for damages.

At the time, I understand your Department asked the father to hold this until the boy was fully of age, meaning the twenty one year mark.

You had his visit last week, and according to his statement, you referred him to his own agency, to take this matter up from here. This man claims he is entitled to some damage, as it has lost a number of jobs for him, and wants you to allow him a decent amount at once, so he can move back to his wife and kid. I would be obliged, if you would give this letter quick consideration, and advise of your intentions.

Respectfully

INDIAN AGENT.

MRR/D.

Ottawa,
January 6, 1939.

Dear Sir:

I am in receipt of your letter of the 27th ultimo with reference to Paul Henry Grosblouis.

For your information I enclose copy of a letter written to this boy's father on June 18, 1932. This letter fully explains the accident and you will note that neither the school management nor the Department assumed any responsibility for it as it is quite apparent that the accident was due wholly to the boy's own carelessness.

Present regulations provide that when an Indian is 18 months away from his Reserve the municipality in which he is resident will have to be responsible for his maintenance and medical care should he become ill or indigent. This Department is not prepared to allow any relief to Paul Henry Grosblouis.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

M. E. Bastien, Esq.,

[Circular stamp: RECEIVED INDIAN AFFAIRS BRANCH JAN 6 1939]

Mr. T.R. MacInnes,
Dept. of Mines and Resources,
Indian Affairs Branch,
Ottawa, Ont.

Dear Sir:

Reverend Father Howitt, S.J. gave me your ~~letter~~ letter of December 14 in answer to ours of December 12th. Out of the 70 gallons referred to in your letter, 35 went to the Boys Department and 35 to the Girls Department. Believing to follow the indications of medical authorities, the girls were served each a dessert spoon three times a day.

126 Girls take in one day 378 dessert spoonfuls
1 Gallon - 160 ounces (imperial measure)
1 Ounce contains 4 dessert spoonfuls
160 ounces (a gallon) contains 640 dessert spoonfuls
35 Gallons contains 22,400 dessert spoonfuls

22,400 Dessert spoonfuls - 378 Dessert spoonfuls, 59 days to use 35 gallons, if they do not take it during 4 or 5 days a month.

The results are good, the weight increases and the general health is good. At the T.B. clinic in April 1938 one only case has been found who needed special care. The Doctor visiting the school is pleased with the state of health of our children.

We attribute this success to the use of Cod Liver oil. In spite of the welfare, the oil procures to the girls we are ready to change the way of serving it though we do not think it would be so efficacious.

Yours truly,

Indian Residential School

~~M. J. Phelan~~
M. J. Phelan, Chief, Training Division
Ottawa

Dear Mr Phelan:

We have a few girls suffering from swollen tonsils, but one of them, Lila Simpson 01052 is really in a very poor condition. Would it be permitted to send her to the hospital to be operated. Dr Gibbon, Dr Harvie's assistant saw her; he thinks as we do but says he is not permitted to do it.

I also took upon myself to get glasses for Roicie Frank 0989 who is discharged though she is still here as we can't find her family. While she was in school all day she could put her book a few inches from her sight, but now we put her in the vocational class and she can hardly see a cup three feet from her.

Trusting this will meet with your approval,

Principal
Girls Division
Spanish Res Sch
B.P.

Your servant
Clotilde Laferrere

October 18, 1940.

Dear Sir:

We have received a letter, copy of which is enclosed, from the Principal of the Girls' Section of the Spanish Residential School.

It will be in order for you to arrange to have Lila Simpson attended to by the doctor, and if a tonsillectomy is necessary it may be proceeded with, that is, if permission is obtained from her parents or guardians.

The Principal mentions getting glasses for Rosie Frank. We are enclosing copy of our latest circular in this regard and in future we wish the instructions set forth therein followed. Under the circumstances, it seems apparent that Rosie Frank was badly in need of glasses and, therefore, in this instance we will authorize their purchase. Is there any possibility that the parents of this child might pay part of the expense of these glasses?

Yours truly,

H. Falconer M.D.

Ottawa, Ont.

Dear Sirs:

As there is an epidemic of whooping cough in the country surrounding St. Joseph's Residential School, Spanish, I would suggest that all the pupils in that school be given the regular immunization with pertussis vaccine.

There are about 250 pupils and it would be necessary to arrange for an adequate supply of vaccine for this purpose, should you approve.

Yours truly,

Dr. H. H. Harvie
Dr. H. H. Harvie.

Sir.

I have been having trouble with the Department of Indian Affairs regarding of my daughter who is Emma LeCunha at the Spanish St Joseph School also the head Matron of the school for glasses for my daughter but this time I am asking you if you will send her twenty-five (\$25) for her expenses to Sudbury & glasses, which he has (\$100) sixty dollars to her credit of her interest's treaty money in the Department of Indian Affairs.

I wish you would see into this as her eye sight is very bad.

I have had different complaints from the school teachers at Spanish. Kindly write to me at once.

Yours sincerely,

Niagara Employment B 15480 The Comandante
Katoan
Niagara Camp, Niagara-on-Lake, Ont.

Indian Residential School

Spanish, Ont.

Oct. 17th. 1941

The Secretary
Indian Affairs Branch
Dept. of Mines and Resources
Ottawa, Ont.

Dear sir;

We are again asking for the following articles and drugs. They were requested in June, 1941, but were never received. When Doctor Faulkner made his official visit this year, we informed him of this and he intimated that we should again make a request for them. We carefully explained to him our particular need of these items, herein listed.

- | | | |
|------------------------------|---|---|
| 1- Head band & Mirror | 1 | 12- Rolls adhesive tape, 2 x 10 |
| 1- Dental probe, R & L curve | 1 | 4- Bolts plain gauze 25 yds x 4 |
| 1- Dental mirror | 1 | 15- Cases of Thalattol or Cod Liver oil |
- 3 special cases 6 more*
none requested
12 cases of Thalattol 3 more

It might be well to state again our need for these articles. The head band and mirror is needed to make preliminary examination of patient, before phoning doctor, who is residing 35 miles from the school. In all cases the doctor always tries to find out as much information as possible before deciding what is best to do to boy. Without the head band and mirror we are often at a lost to answer his questions.

Concerning the dental instruments our difficulty is much

the same. It is necessary for us to make the preliminary examination of the boys teeth, before making report to Dept. for visit of Dentist and moreover, we have to treat tooth aches at the school. It would be impossible as well as very costly to have to run every boy with a tooth ache to the dentist, who lives 35 miles from the school.

Our need for adhesive tape and guaze is also very great. This year we only received two rolls of 2 x 10 tape, which has already been used up. Last year we experienced the same difficulty and as a result we had to buy an addition supply. This year we have again bought an extra two rolls, which we last us for another month or two. We have also had to sew on all dressings or else tie them with sheeting. When we explained this to the Doctor, he informs us that the Dept. could buy this material cheaper than our school. Likewise for the guaze, we have to use a lot of this material, due to the fact that Indian children are often troubled with skin disease. This years supply is about axed up.

This years supply of cod liver oil will last us only about 3½ months. Rationing out the oil to 125 boys, a case lasts us from 8 to 10 days. To get good and lasting results from the oil for the year we should start now to issue it, but if we do so, we will have used our supply before the middle of the year. We should especially give oil to the boys in the Spring as well as Fall and half the winter months. But to do this we would need at least 15 more cases. Last year we had very good results from the little supply we had on hand. But we found out we started too late and had to stop too early in the year, to enable us to obtain the very best results and less sickness. Hoping you will give this request your kindest consideration we remain,
Yours truly.

J. Hewitt

St. Joseph's School,

Spanish, Ont.,

Dec. 9, 1941.

Mr. Philip Phalen,

Chief of Training Division,

Department of Mines and Resources,

Indian Affairs Branch, Ottawa.

Dear Mr. Phalen:

One of our pupils, Rita Maracle, is apparently suffering from some type of mental illness, and we should like to have arrangements made for placing her in some institution where she could be given necessary attention.

This child was sent here from an orphanage at Kingston, Ont., on July 10, 1940. She is sixteen years of age. She has had no correspondence from parents or relatives since her arrival, and we have no records as to her parents, home address, etc.

She has always seemed to be of a very morose disposition. Since September

Indian Affairs. (RG 10, Volume 6219, file 471-13, part 3)

first, she has become more and more troublesome, until it has become necessary to remove her from contact with the other children. She has shown excessive stubbornness for about two months, refusing to move when told to do so, to take her meals, retire to bed, etc. It is apparent that this condition is caused by some nervous disorder, as she does not sleep well at night, something most unusual for a child of her age.

This condition has gradually become worse, until to-day, when she showed signs of definite insanity, by tearing her clothing, the bed covering, etc.

Will you kindly advise me, as to the wishes of the Department regarding her.

Thanking you, I am,

Yours sincerely,

Walter Spier

Memorandum:

DOCTOR MOORE

Re: Rita Maracle

I should appreciate your considering the attached letter which I have just received from the Principal of the Girls' School at Spanish, Ont., regarding the above-mentioned pupil.

The information on our files indicates that this girl was born in the year 1927. She was an illegitimate child of Percilla Maracle of the Tyendinaga Reserve and was adopted by Freeman Maracle and his wife. Freeman Maracle is also a member of the Tyendinaga Band. His wife died in the spring of 1932 and he deserted the child in August of that year. At that time she was placed in St. Mary's of the Lake Orphanage, Kingston, Ont., as the Indian Agent stated that she was a Catholic.

She remained there until July of 1940 at which time she was transferred to the Spanish Residential School.

Philip Phelan,
Chief, Training Division.

1948

Dear Mr. Phelan:

Last Fall when the Dr. W.D. Falconer visited here, we spoke to him of the girls needing glasses and he told us the Department would pay the eye test and the glasses provided the prescriptions be sent to Ottawa as there they can be had cheaper than here.

As time passed and nothing was done, early this Spring I asked the parents to pay the children's fare to the Soo where they could have their eyes tested. About the same time Dr. Harvie sent word that an optician would be sent here.

As he has not come yet and I had the advantage of sending some girls with a teacher who went on business, I sent Violet Cooper 01083 Nancy Manetowabe 01081
Mary Ann Oshkaboose 0960 Angeline Enosse 01148

Dr. Stevenson was to send his bill and the prescriptions to the Department.

Two other girls have received money from home and will probably go to the Soo some day. There are others who will not receive anything from home; they will wait for the optician who will come I hope before the end of June.

Trusting this will meet your approval,

I remain,

Your humble servant,

Abelard Laferriere

Reverend Sir:

It will be in order to arrange with Dr. Boyd to hold a dental clinic, not to exceed four days at the Spanish school. The Department will pay the usual \$30 a day, the dentist to supply his own equipment and materials.

It is thought that the regular medical attendant of the school could probably arrange to be present when Doctor Boyd is holding the clinic so that he could give the anaesthetics where patients require them. It is also thought probable that the medical attendant could carry out a number of the extractions that are necessary.

Yours truly,

T. R. L. MacInnes

Dear Sir:

Father Primeau of the Spanish River Indian Residential School, has written to the Department regarding a dental clinic at the school. He states there are 142 extractions and 120 fillings to be done.

If you care to undertake this work, the Department will allow you the usual \$30.00 a day and you are to supply your own equipment and materials.

A five day clinic is authorized and if absolutely necessary, one more day, making a total of six, could be allowed.

Yours very truly,

P. E. Moore

February 1, 1943.

Dear Doctor Moore,

Doctor Hamill of Blind River has recommended that Charlotte Lazare, No. 0983, see a specialist as she has small tumors in each of her nostrils. I understand he suggested Sudbury.

Doctor Hamill is going to operate on the tonsils of two of the children at the Girls' School this week. He will do the operations at Blind River. The two children are No. 01106 Lillian Solomon and No. 01147 Annie Corbiere.

457-18 (3)

I have received the reports of the X-rays taken by the Travelling Chest Clinic. They recommended hospitalisation of one child, Agnes Solomon, but it apparently is an error as the child is quite alright--Dr. Hamill examined her yesterday evening. I believe Dr. Hamill is writing in regard to this matter. The report recommends that one of the boys be re-x-rayed in six weeks--the diagnosis was probable pneumonia at left base. It is recommended that another boy be re-x-rayed in 3-4 months, and that three of the girls and two of the boys be re-x-rayed in six months. Will you kindly advise your wishes in this regard.

Yours very truly,

[Handwritten signature: C. A. Primmer, S.F.]

February 9, 1943

Reverend Sir:

re: Charlotte Lazare

It will be in order to send this child to Sudbury for treatment by a specialist. It would be well to advise either the hospital or Dr. McCullough the date that she will arrive so that there may be no undue delay in having her given the necessary attention.

I am writing to the Ontario Division of Tuberculosis Prevention regarding Agnes Soloman as there seems to be some mistake regarding the report made.

Arrangements should be made to have the other pupils re-x-rayed on the dates suggested. Doctor Hamill might be able to advise you when a travelling clinic will be visiting Blind River.

Yours very truly,

P. E. Moore, M.D., D.P.H.
Acting Superintendent of Medical Services

Indian Residential School,
Spanish, Ontario,
March 24, 1943.

Dear Sir,

Enclosed is our claim, in duplicate, for medical expenses incurred during the past year. You will note that the receipted invoice for March 10th is for the amount of \$4.40 but the first item on the invoice was for one of the teachers and so I have not included it in the claim.

X 30 44-10

One of the children at the Girls' School, Holly Rice, No. 01080, appears to be somewhat mental--she is certainly not normal, I am told, and has taken fits and dizzy spells. Her mother is at present in a mental institution. Last summer she was in Blind River hospital but Dr. Hamill could discover nothing at the time. Of late the fits apparently are recurring. She is from Caughnawaga. Could she possibly be sent to St. Jean de Dieu Hospital at Long Point, Montreal, for examination?

Yours very truly,

C.A. Primeau, S.J.

April 1, 1943

Reverend Sir:

I wish to acknowledge your letter of March 24 with enclosed account for \$29.27.

With reference to Holly Rice, the school term will soon be over and on her return to the Reserve at Caughnawaga we can have her examined by our medical officer there.

Regarding the account we would like further information on several items before approving payment.

Upon whose authority was a nurse hired to attend the dental clinic? It is not the custom of this Department to arrange a contract with a dentist to do certain work and then pay for a nurse's services as well. Medical supplies are sent out from the Department for use in the dispensary. If certain medicines are not available in this stock, the Department will pay for what is required on the prescription of the doctor in charge, a copy of the prescription must be forwarded with the account from the drug store.

There is a total of \$9.12 for lenses for Leonard Cross. Was this authorized? Regulations state authority must be obtained from Ottawa. The Department cannot approve of paying for spectacle cases at 50¢ a piece when we obtain and maintain a stock of them here at 6¢ each.

On receipt of this information further consideration will be given the account, but it is emphasized that

JUN 12 1943

Dear Sir,

It is discouraging enough to be denied a regular medical attendant but when we are refused even the necessary medical supplies, the situation becomes impossible. The Medical Services know full well that we have no regular medical attendant and yet they do not even acknowledge our request of March 19th for necessary medical supplies. Apparently they do not appreciate even the effort we have made to carry on without a regular doctor--or the effort we have made to keep down expenses--a very discouraging attitude, to say the least. Let them try to take care of 126 active boys and see how far they can go without medical supplies. If they are not concerned about first aid and medical care for them, we are. And we are quite concerned that none of the children entrusted to our care die because of their not receiving proper care or care in time. If the Medical Services prefer to pay hospital bills, we are ready to send all sick to the hospital.

The Department authorized glasses for the children last year and finally sent the glasses--without cases. Anyone would know how long glasses would remain unbroken if given to live boys without cases. The Department included a note with the glasses to the effect that cases could not be procured. I took the trouble to search around until I found an oculist kind enough to let me have a dozen cases. The Department then refuse to pay for them because they--the Department--"obtain and maintain a stock of them at 6 \$ each". (Cf. Letter of W.L. Falconer, M.D., File 36-0-13, April 1, 1943.) Somehow it sounds rather contradictory to me.

One of the boys broke his glasses twice and had to have them repaired. The Department--in the same letter mentioned above--ask if this was authorized. Perhaps they will state whether their initial authorization for the child to wear glasses meant for him to wear them only until they were broken, or did the authorization mean that they considered that the child should wear glasses until the eye condition was corrected, if possible. The lad actually had about 10% vision in one eye and 30% in the other.

(over)

In the same letter, the writer states that medical supplies are sent out from the Department for use in the dispensary. Their disregard of our request for supplies needed does not carry out this statement.

The Department authorized a Dental Clinic last Fall. Before the Clinic began, our infirmarian was obliged to go to the hospital as a patient--he was 17 days in the hospital--due to a blood infection contracted while treating infected cases among the pupils. The Dental Clinic was during his stay in the hospital. I myself looked after the regular infirmary treatments and the sick during those 17 days--and it saved the doctor more than one call. But I could not remain with the Dentist all day long during his clinic which he held during that time. Someone had to assist. I called upon a nurse. I did not call upon the Department to pay for our infirmarian's hospital expenses etc., though the infection was due to his devoting himself to the work of the Department. But I did submit a claim for the fee paid to the nurse. It was not allowed. Instead the reply abruptly demanded upon whose authority a nurse was hired! The more one does apparently, the less thanks one receives.

To be sent with Caughnawaga
and same

I asked that something be done in regard to one of the pupils at the Girls' School, who appears to be somewhat mental. The writer in the same letter already referred to dismissed the request with a summary reply that the school term would soon be over and on her return to the Reserve at Caughnawaga she could be examined by your medical officer there. At the time of writing, there still remained three months of the school term. And though the child originally came from Caughnawaga, I mentioned in my letter that the mother of the child was in a mental institution. The child has no home there now. The father, I am told, is somewhere in the States. Caughnawaga children never go back to the Reserve for the summer holidays--they remain here until they are discharged by the Department and then return to the Reserve if they have a home and a suitable one. The Medical Services might give our requests credit for having been thought upon a little bit before being made and for taking into consideration various circumstances surrounding and affecting the individual cases.

Our relations with the officers of the Welfare and Training Divisions have always been so cordial and pleasant and an encouragement to cooperation. It is with deepest regret that I write this letter in respect to our relations with the Medical Services. For two months I could not bring myself to discuss their letter of April 1st. But I can no longer hesitate to write as something must be done in regard to our medical situation, and the disregard of our request for supplies that are needed if we are to carry on. I leave the matter in your hands.

Yours very truly,

The Principal of the Spanish Indian Residential School has sent in glasses belonging to Leonard Cross which have been broken and asks that repairs be made. These glasses were supplied to Leonard on a prescription issued in October 1941 and it is just a question whether he would require lenses of the same strength at this time. His face probably has increased in size somewhat but, if not, the frame could again be used. Leonard was being discharged on June 30th and returning to Caughnawaga and it would be advisable to have his eyes examined to determine present requirements. The prescription may be forwarded to this office for filling and the glasses will be mailed to the patient in your care.

Dr. W. L. Falconer, M.D. Assist. Supt., Medical Services, Indian
Affairs Branch, Ottawa.

This is to acknowledge the receipt of your letter of
the 5th instant dealing with the glasses of Leonard Cross
who was recently discharged from the Spanish Residential
School.

In reply I wish to inform that the boy's father Jos.
Cross Jr., is making at least \$75.00 per week as a steelworker
and is consider well able to supply his son with glasses or
have the actual pair repaired.

Will you kindly forward me the glasses when I will
interview the boys father and explain him that he should
take him to an oculist and have the eyes of his son tested.

(Frs. Brisebois)
Indian Agent.

Dr. F. Donnelly, M.D.,
Massey, Ontario.

Dear Doctor Donnelly,

Miss Huot, Infirmarian at the Girls' School, has submitted to me a list of the children at the Girls' School who are in need of attention for their eyes.

The following are the names:

- No. C1081 Nancy Manitowabe -- appears to need the attention of a specialist. She is nearly blind. Saw Dr. Stevenson at Soo in 1942.
- No. O1148 Angeline Enosse --- One eye useless, the other one turned. Saw Dr. Stevenson at Soo in 1942.
- No. O901 Eva Commanda ----- Cannot read with the glasses she received in 1942. Eyes extremely poor. Saw Dr. Stevenson at Soo in 1942.
- No. O1116 Margaret McLeod --- Needs attention of a specialist.

Yours truly,

C. A. Primeau

Dear Sir,

The urinalysis set asked for was not among the articles received May 25th. I need the set, because very often we are obliged to analyse. If we cannot have the whole set, would you kindly send us an alcohol lamp, as the one I have is broken.

Hoping to receive a favourable reply, I am

Respectfully yours,

Flore Hebert

re: Dental Clinic - Spanish School

Father Primeau was in the office to-day and brought up the subject of a dental clinic at the Spanish School. It seems that Dr. W. E. Boyd of Espanola is willing to do the work at the usual rates. Will you kindly arrange for him to do this dentistry. Four days have been suggested by the Rev. Father and this is approved.

Re: Anna Mae Peter,

Dear Mr. Moore:

On my latest visit to the Spanish Residential Schools, I examined the some mentioned girls, and find that one is suffering from eczema.

This case is of long standing and I consider the chances of cure as very poor.

I consider that this girl should be referred to a skin specialist in Toronto, and get his opinion about her before proceeding further with the case.

Yours truly

The W. Donnelly M.D.

Ottawa, August 23, 1886.

Reverend Sir:

In acknowledgement of your letter of the 20th instant, reporting the gravity of the illness of Isaac Thompson, I wish to state that the suggestion to send the body home, if the boy should die, has received sympathetic consideration. I have to point out, however, that it is not the practice of the Department to send bodies of Indians by rail excepting under very exceptional circumstances. Bodies so shipped have to be properly prepared by the undertakers for transportation under the laws of the province, and the expense of a long journey, such as this would be, would entail an expenditure which the Department does not feel warranted in authorizing.

Yours very truly,

R. A. Hoey,
Supt. of Welfare & Training.

Reverend J. Hewitt, S.J.,
Principal,
Spanish Indian Residential School,
